### **CONFERENCE HIGHLIGHTS - SESSIONS**

- Awards and Orations
- Instruction Courses
- Free papers
- What will you do
- OPL
- Court Martial
- Medicolegal sessions
- Sessions with experienced stalwarts and the rising stars
- Great discussions and camaraderie
- Cultural Programs (by our own members)
- Quiz - with attractive prizes.

### **FROM THE DESK OF THE PRESIDENT**

Dear Seniors and Friends,

Maharashtra Ophthalmology Society's annual scientific conference MOSCON 2021 is being held virtually once again, as it was in 2020. Our team has had the dubious distinction of having started and finishing our tenure virtually. But 'virtual' allowed us to connect with district societies, have a summer summit with BOA and still be in touch in these social distancing days. The scientific committee under the able leadership of Prof Ragini Parekh has brought out an excellent scientific program, giving opportunities to the new, and learning again from the old, in Maharashtra ophthalmology. Dr. Shirish Thorat, Dr. Pankaj Shah and Dr. Swapnesh Sawant have toiled hard to see the virtual conference through.

We all miss the meetings in person and camaraderie of a 'real' meeting. That would have to wait for Nashik MOSCON 2022. But we can still enjoy the scientific feast, and perhaps sans friends and fanfare, we can concentrate on the science better.

Thank you for being part of Virtual MOSCON 2021.

Warm regards, **Parikshit Gogate**

**Dr. Parikshit Gogate**

#### **Ocular and Adnexal Tumors – Guide to Diagnosis!**

#### **PARANJPE HALL**

#### **Time: 4:00 PM – 5:00 PM**

**Chief Instructor: Dr. Mangesh Dhobekar**

**Panel: Dr. Sonal P Yadav, Dr. Aditi Parag Watve, Dr. Sumeet Lahane, Dr. Swapnil Patil**

Eye cancer approximately constitutes for 0.1% of malignancies of all anatomical sites. With the recent technological advances and availability of ancillary testing, the diagnosis and management of eye cancers has come a long way. Though rare, we can encounter ocular and adnexal tumors (benign and malignant) in our daily practice. Due to the urgency in initiation of treatment for malignant tumors to increase the chance of eye and vision salvage, timely diagnosis is most important. This IC will discuss the diagnostic criterions for ocular and adnexal tumors. Eyelid tumors, orbital tumors, ocular surface tumors, intraocular tumors as well as ocular pathology will be discussed in detail.

<b>No</b>	<b>Topics</b>	<b>Presenter</b>	<b>Min</b>
1	Eyelid Tumors- Picking the Red Flags!	Dr. Aditi Parag Watve	8

#### **Time: 5:00 PM – 6:00 PM**

**Chief Instructor: Dr. Rajesh Joshi**

**Panel: Dr. Sabyasachi Sengupta, Dr. Sunil Morekar, Dr. Viral Shah, Dr. Parikshit Gogate**

Medical science is not an exact science. It is evolving daily. Why should one do research? In the era of evidence-based medicine, all decisions regarding patient management are based on research. We are constantly striving for the best patient care. Everyone needs to learn research right from the undergraduates to consultants. Research and publication have been neglected at undergraduate and postgraduate level. The curriculum does not cover many aspects of research. The aim of this instruction course is to make aware of various aspects of research methodology.

### **IC 32**

#### **Lacrimal disorders in a nutshell**

#### **PARANJPE HALL**

**Time: 5:00 PM – 6:00 PM**

**Chief Instructor: Dr. Ramesh Murthy**

**Panel: Dr. Himika Gupta, Dr. Savari Desai, Dr. Mangesh Dhobekar, Dr. Milind Changole**

In this course we propose to highlight the common lacrimal disorders and management of the same. We will discuss pediatric nasolacrimal duct obstruction - the old and the new, punctal stenosis and canalicular problems, external and endoscopic DCR and methods to enhance the success of DCR like intubation and mitomycin C. We will also discuss the management of lacrimal system trauma including canalicular tears and post trauma DCR. The presentations will be practical with lots of pictures and videos. The management of the conditions will be presented in a simplified way for the benefit of the general ophthalmologist, so that they can confidently approach every case.

<b>No</b>	<b>Topics</b>	<b>Presenter</b>	<b>Min</b>
