MOS MID TERM 2026 (ONLINE)

Message by Chairman, Scientific Committee, MOS

Dear Esteemed Seniors and Members of the MOS Family,

"The most powerful lessons in ophthalmology are not just read-they are experienced."

With a strong and ever-growing community of over 3,500 members, the Maharashtra Ophthalmological Society continues to be a beacon of academic excellence and professional camaraderie. Our members have consistently contributed with distinction at both national and international platforms, reinforcing MOS as one of the most vibrant state societies in the country.

It gives me immense pleasure to present the MOSCON Midterm Conference 2026, centered around the theme: "When Cases Speak: Lessons Beyond Textbooks."

In the practice of ophthalmology, some of the most enduring lessons emerge not from structured guidelines alone, but from real-world clinical encounters. Cases challenge our thinking, test our judgment, and often reveal nuances that no textbook can fully capture. This year's conference is designed to harness these invaluable learning moments.

Each session has been thoughtfully curated to bring forward:

- Insightful case presentations by young consultants, focusing on practical and clinically relevant scenarios
- Perspective-driven contributions by senior consultants, distilling experience into clear, meaningful take-home messages
- Engaging expert panel discussions, enabling deeper analysis and multidimensional learning

Spanning multiple subspecialties, the emphasis remains on interactive, case-driven learning that is directly translatable to day-to-day clinical practice.

This conference is a reflection of collective effort and commitment. I extend my appreciation & gratitude to Dr Anagha Heroor, President MOS; Dr Priti kamdar, Hon. Secretary MOS and Dr Ajay Lohiya, Hon. Treasurer MOS, Dr Atul Kadhane, President Elect MOS Dr Viral Shah, Vice President MOS; Dr. Shirish Thorat, Immediate Past President MOS; our Patron Dr. Prof T P Lahane; our advisors, AIOS representatives to AIOS, and Managing Committee members MOS.

I also acknowledge the dedicated efforts of the Scientific Committee Members, Dr Sumeet Lahane, Dr Archana Vare, Dr Saurabh Mundhada, Dr. Maneesh Bapayee, Dr. Aditi Watve and all the subspecialty session coordinators for curating a program of exceptional academic value.

"When cases speak, experience teaches-3 and learning becomes unforgettable."

Warm regards,
Dr. Piyush Bansal
Chairman, Scientific Committee
Maharashtra Ophthalmological Society

MOS MID TERM 2026 (ONLINE)

Dear MOS Members,

Warm greetings.

Over the past few months, MOS has remained vibrant and actively engaged through a wide spectrum of initiatives—academic webinars, physical CMEs, sports events, and cultural activities—strengthening both our professional excellence and our community bonding.

We have also introduced several unique academic platforms such as MOS One Minute Clinical Pearls, MOS Sunday Samvaad, One Procedure a Month webinars, and MOS Clinical Rounds, each designed to make learning more practical, engaging, and relevant to our day-to-day practice.

I take this opportunity to sincerely thank all MOS members for your active participation and enthusiastic support, which truly drives these initiatives forward.

I also extend my heartfelt appreciation to Team MOS-

Dr. Priti Kamdar, Hon. Secretary, MOS

Dr. Ajay Lohiya, Hon. Treasurer, MOS

Dr. Piyush Bansal, Chairman, Scientific Committee, MOS—for their continued efforts and commitment.

Continuing this momentum, it gives me great pleasure to invite you to the Midterm MOSCON 2026, scheduled on 16th & 17th May (Online).

This conference has been thoughtfully curated to bring together enriching discussions, expert insights, and meaningful learning—aimed at further enhancing our clinical practice and collective growth.

I encourage each one of you to actively participate and make the most of this academic platform.

Looking forward to your enthusiastic presence.

With warm regards,

Dr. Anagha Heroor

MOS MID TERM 2026 (ONLINE)

My Dear MOS family,

As Secretary of MOS, It is a privilege to welcome you all to the Midterm Online Conference of the Maharashtra Ophthalmological Society, being held on the 16th and 17th of May.

This conference has been designed to be practical & completely case based & to have a healthy mix of youth & experience.

Too often, academic meetings drift into theory that doesn't translate to everyday practice. We've tried to avoid that. The focus here is on real-world decision-making, common challenges, and approaches that you can actually apply in your clinics from the very next day. The sessions are concise & targeted, and built around clarity rather than complexity.

The online format removes barriers of travel and time, If even one session changes the way you approach a clinical situation, this conference has done its job.

I would like to thank our chairperson scientific committee Dr Piyush Bansal, scientific committee & the organising team for putting together a robust academic programme. To all participants-engage fully. Challenge what you hear. Take back ideas that genuinely improve patient care.

Wishing you all a productive and insightful conference.

With warm regards,

Dr. Priti Kamdar
